Before submitting your application, please be sure your schedule will allow you to spend the time required to enjoy our garden. Successful participation in our community garden requires a significant commitment of time. In addition to the 12 hours per year of community service to OVF, you must commit to spending enough time to keep your garden plot reasonably free of weeds and planted with your choice of plants pursuant to our Rules and Regulations. The garden is open and active all year. Members who do not maintain and utilize their plots and comply with all the rules of the garden may have their membership terminated.

Some of the many tasks/work groups at the garden that you may participate in to earn your annual community service hours include working in our award winning composting program, tending our orchards, working on general site maintenance, and assisting in any of the many classes and programs hosted by the garden. Failure to complete the required number of hours can result in termination or non-renewal of your membership.
